Mandatory attendance is 175 days for a full calendar year. Absences are tallied only when a student falls below mandatory attendance.

Example: 175 days of attendance and 3 absences. No absences will be recorded on the transcript.

160 days of attendance. 15 absences will be recorded on the transcript.

Mid-year enrollments should try to meet a daily attendance equal to the mandatory attendance minus the previous school record.

Example: 60 days recorded from previous school. 175 minus 60 equals 115 days for the remainder of the year.
